3. RISK MANAGEMENT FUNCTION

i. Strategies and Policies

Credit risk process is a joint effort between its marketing and credit areas. Credit officers are engaged in analyzing inherent risks in the customer's business, ability to repay and structure a facility that simultaneously accommodates the financing needs, while assuring security, protection and control of the bank's assets and collateral.

ii. The Structure and Organization of the Relevant Risk Management Function

A comprehensive Risk Management System has been ensured to deal with various types of risks. The risk management function is overseen by the Board of Directors through the Risk Management Committee of the Board (RMCB) and Audit Committee of the Board (ACB). Besides, there are Credit Risk Management Committee (CRMC), Asset Liability Management Committee (ALCO), Market Risk Management Committee (MRMC) and Operational Risk Management Committee (ORMC) for formulating and reviewing the risk management policies and monitoring their implementation in the matters related to credit, market and operational risks. The progress of the action implementation is reviewed by the Bank's Board, including review of the decisions of the Central Management Committee. The Bank has already migrated to Basel-II norms and the Capital to Risk Weighted Assets Ratio (CRAR) is also being worked out as per the guidelines of Basel-II. The Bank also plans to go for Operational Risk Management Solution software in near future for assessing the Operational Risk on an ongoing basis. To control, obviate and mitigate the operational risk, the Bank has put in place comprehensive operational guidelines and has also issued various manuals, such as Cash Module Manual, IT manual, Finacle Job cards, TFCPC manual, Internet Banking guidelines, Mobile Banking operational guidelines, Credit assessment and process guidelines for the operating units.

The Risk structures are being revisited at frequent intervals and the requisite policies, systems are being introduced and kept updated. For both credit and market risks, stress testing is being done regularly. With all branches on Core Banking Solution (CBS), Credit Information and MIS works on a robust platform. The Bank has direct access to the CIB database which have been allocated to our operating units/offices, enabling them to generate Credit Information Report on borrowers / prospective borrowers from this database. An MIS website is maintained by Bank to provide easy access to the central database, which is being extensively used by the operating units. Various returns to be submitted to regulatory agencies are now being centrally generated at Corporate office level, thus enabling branches to focus more on business development and customer services.

The Bank has Integrated Risk Management Department headed by Chief Risk Officer (CRO) to strengthen the Risk Management structure, which includes assessing, identifying, monitoring and reducing pertinent business risk that could interface with the Bank's objectives and goal.

iii. The Scope and Nature of Risk Reporting and / or Measurement Systems

Risk reporting / measurement system is done through regular customer interactions, site inspections & annual reviews. These are continuous processes. Further, review of the bank's performance is conducted every quarter and findings are reported to the BOD.

iv. Policies for Hedging and / or the mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges / mitigates

Policies for mitigating risks & strategies are as outlined in the respective manuals and as discussed at various levels after customer interactions / visits, during annual reviews, quarterly reviews and at meetings at various levels.
